

Lincoln Sentry Handle Range

Warranty

All handles carry a limited 1-year warranty from the date of purchase. The warranty only applies to the original purchaser of the handle and is non-transferable.

It does not cover the following:

- Corrosion or tarnishing caused by adverse atmospheric conditions;
- Corrosion or tarnishing due to incorrect care and maintenance contrary to the cleaning recommendations below;
- In the case of a warranty claim, Lincoln Sentry reserve the right to re-supply the handles only or refund the original purchaser if the handles are no longer available

Cleaning

It is recommended that all handles and knobs be cleaned using warm soapy water and a soft cloth. For stainless steel handles we also recommend 3M stainless steel cleaner (1-120-783) and a soft cloth. Failure to adhere with these recommendations could see the handle and knob warranty voided.
